

I'M HERE BECAUSE OF THEO VON'S PODCAST

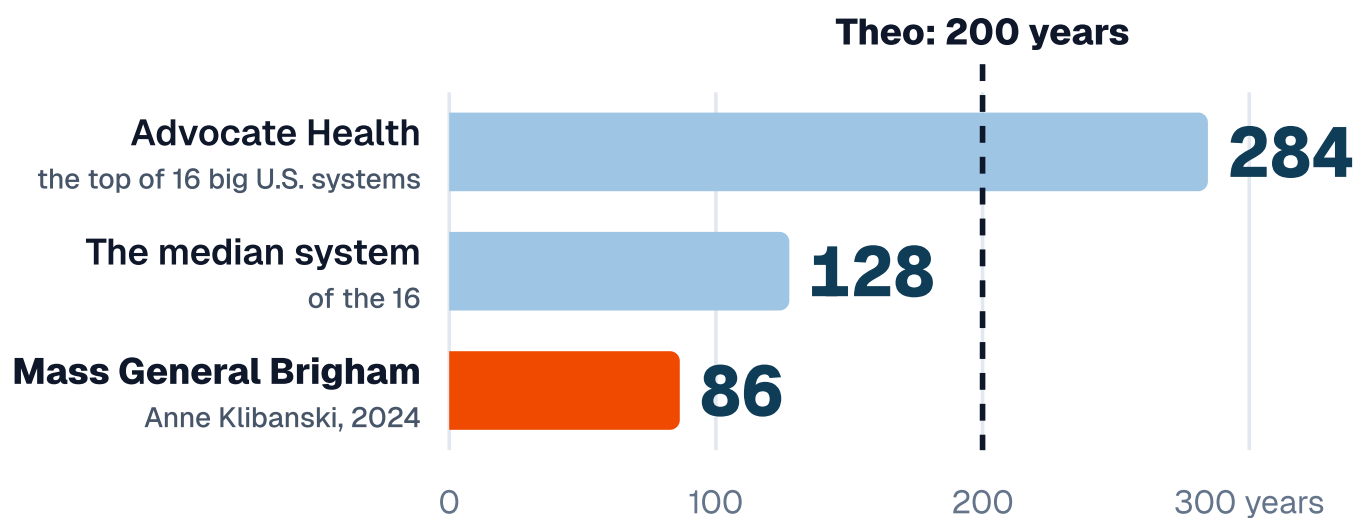

A comedian asked a serious question.

On *This Past Weekend* #687, Theo said a nurse “would have to work 200 years full-time” to make what some hospital CEOs make in one.

He didn't name a hospital, so I pulled the tax filings.

BUZZ BUZZ! GANG GANG

He was right at the very top: 4 of 16 clear 200 years. At Mass General Brigham it's 86. Thanks for wondering out loud, Theo.
